

Annual Flower Show

February 28-29, 2020

San Antonio Garden Center

3310 N. New Braunfels Ave @ Funston

San Antonio, TX 78209

You are encouraged to plan to submit entries into the SAGC Annual Plant Sale in February as Bexar County Master Gardeners will be managing the Horticulture Division of the Annual Flower Show. We will be helping with the classification information on the entry cards and the correct placement of the entries.

Specimens in the Horticulture Division include single-blossom, foliage, bromeliads, ferns, combination plantings (3 or more botanically different plants), or collections (minimum of 5 related – such as 1 plant family, similar characteristics like ferns, flowering annuals, shade foliage, one genus, petite, etc.)

Keep up with your great gardening and keep your plants looking great and ready for the show. If you have any questions, contact [Barbara Lutz](#).
