# Dig it!

# Garden Series

## July - August

Grow your mind as you hear from local experts on a variety of summer gardening topics, and have an opportunity to ask questions. Let's dig it!

### Container Gardening

Basics of container gardening including container selection, ornamental plant ideas, and ongoing care.

### Finding Plants That Thrive

There's a lot to consider when selecting plants for your home, balcony, patio or yard. We'll guide you through this process as you consider plant types, soil conditions, and rainfall.

### Pollinator Gardening

Discover plants that keep pollinators fed and support a thriving ecosystem year-round.

### Surviving the Summer Heat

Hot Texas summers are hard on lawns and plants too. Learn practical solutions to keep your greenery flourishing.

### Texas Superstars® line of plants

These plants have been rigorously tested and proven they are Texas tough all year long.

### Texas: It's a Whole 'Nuther Country!

Are you a newcomer to gardening in South Texas? This session is for you.

### Growing Herbs

Basics of planting, caring for and harvesting.
